

## Project Design Phase-I Solution Architecture

Date	19 September 2023
Team ID	D2BEB57988D6DB7A0644CD0E321AD05B
Project Name	Project -GlobeTrek Insights: Navigating Global Country Data with IBM Cognos
Maximum Marks	4 Marks

### Solution Architecture:

Solution architecture is a complex process – with many sub-processes – that bridges the gap between business problems and technology solutions. Its goals are to:

- Find the best techs solution to solve existing business problems.
- Describe the structure, characteristics, behaviour, and other aspects of the software to project stakeholders.
- Define features, development phases, and solution requirements.
- Provide specifications according to which the solution is defined, managed, and delivered.

### Example - Solution Architecture Diagram:
